

Practical Fundamentals of Extrusion Seminar at Gloucester Engineering

GLOUCESTER, MA August 8, 2011 - On August 19th Consulting Engineer Allan Griff will present *Practical Fundamentals of Extrusion*, a 1-day live seminar, at Gloucester Engineering's Corporate Headquarters.

This seminar is the latest version of the sessions Allan has presented since 1979, explaining extrusion in clear and practical terms. The outline can be found on his website, www.griffex.com.

The event will run from 9 AM to 5 PM, with time for group and one-on-one questions at the end. The cost for the seminar including lunch is \$495 for the first attendee and \$250 for each additional. For more information or to register, please email algriff@griffex.com or call 301-758-7788.

To learn more about Allan's webinars for Modern Plastics Worldwide and other consulting services, or to purchase copies of *The Plastics Extrusion Operating Manual*, please visit www.griffex.com.

About Gloucester Engineering Co.

Since its inception in 1961, Gloucester Engineering Co. has been a global leader advancing quality and production limits in the plastics extrusion and converting market. GEC offers a range of innovative systems and component solutions, for both new lines and retrofits, that provide customers a competitive edge in applications that include bag making, foam and sheet extrusion, blown and cast film extrusion and extrusion coating. GEC manufactures its equipment from its headquarters in Gloucester, MA, and through its joint-venture company in Damman, India, Kabra Gloucester Engineering.
